If you are developed for a company, you can use the colors of the row to match the logos of your companies (additional bonus points defined)! Siege free to change the appearance of the data sheets and make your applications more interesting. When you double-click on the form in the database window, it appears in the data sheet view. Although, in general, data data is boring gray forms that can use to sort and filter data, we can actually format them to make their appearance more appealing. Choose the gridline colors. I do not reply to personal e-mail Thanks! Works great now. Ä Ä These options can make datasheets look more pleasing (although we accept the one above is not to everyoneçÄÄÄs taste). just thought there must be a more obvious solution, but i cant find it.I am aware of the following but they dont seem to work. Right now, the button command is: DoCmd.OpenForm "frmmtsCWEmployeeAll" Why doesn't this open the form the same way I see it when I double click on the form? Open up a form in datasheet view. Is there some kind of special command to get it to do this? But I created a button in my switchboard to bring up this form, and it shows up with only one record showing, not the whole table. Change the cell effect. I know you can make two forms and just swap the control source and then requery. I recieve error messages such as cant switch view at this time etdocmd.runcommand acmddatasheetview' anddocmd.runcommand accmdformviewcheers mates Thank you for helping keep Tek-Tips Forums free from inappropriate posts.The Tek-Tips staff will check this out and take appropriate action. Right now, the buton command is: DoCmd.OpenForm "frmmtsCWEmployeeAll" Why doesn't this open the form the same way I see it when I double click on the form? Trying to control how and what the continues form displays as opposed to a form that allows the user to view/edit/print/verify and simply control the user interface in a reasoned manor suggests that you are FAR BETTER off to launch another form. Change the alternate background color. When I double click on the form in the database window, it comes up in datasheet view. 2 48236 fredg On 21 Dec 2005 14:42:41 -0800, davegb wrote: I learned recently that I should never allow end users access to my tables, that if I want them to see that data in that format I should show them samrof sod sal y ,n³Ätob le etiper es om²Äc atneuc ne agnet ,oveun ed jac.wahS :etneuF :etneuF(:arto Äuqa .y :detsu arap netiper sotejbo sol y senotob sol se osecca le ne soiralumrof sol raunitnoc ed acreca neib jÄtse etnemlaer euq ol y ,allatnap ed amot al jÄtse ÄUQA DI !EM & "= DI" ,, "SLIATEDMRF" MROFNEPO.DMCOd :GE .ocin³Ärctele oerroc le nebicer euq sorbmeim sol ed edneped SPIT-KET ed dadilanoicnuf aL * !sitarg se;Ä ,odot ed rojem oL .senoicacilbup sus ne serutangiS sodazitamotuA sorof etirovaFsorof sus a cilc olos nu ed osecca racsuB evalc sarbalap ed adeuqs⁸Äb us seoSesnopseR ed sodacifiton res sorbmeim sorto noc elbaH !SPIT-KET ed sorof sol a etenÄ ?lanoiseforp / roditrapmoca serEçÄ 2 anigiÄP .soiralumrof sorto reV + evell es oirausu le euq ritimrep arap a⁹Änitnoc euq oiralumrof ese ne ragul us edreip on y ,ogid³Äc ed saenÄl 2 o anu n©Äibmat onis ,samelborp ed daditnac narg anu eveuser olos on otse .Y ,sellated ed oiralumrof nu ed otheimaznal al ne cilc agah oirausu le euq le noc n³Ätob nu noc ounitnoc oiralumrof nu riurtsnoc arap rojem ohcum se detsu ,lareneg alger omoc orep ,satsiv sod sal ertne etneicne es euq ogla a rajajug saÄrdop etnemelaborP .sotad ed ajoh ed oiralumrof nu selrartsom aÄrebed otamrof ese ne sotad esE naev euq oreuiq is euq ,salbat sim a nadecca selamif soirausu sol euq ritimrep obed acnun euq etnemeteicer ÄdnerPA :Äibirçse bgevaD ,0080- 14:24:41 5002 ed erbmeicid ed 12 lE :Äibirçse gderF bgevaD lanosrep ocin³Ärctele oerroc la odnopser oN .odnof ed roloc le raibmac .edeup euq ogoLjÄid ed ordauc etse odnasU .sotad ed ajoh al ed oetamrof ogoLjÄid ed ordauc le rirba arap ojor olucÄc led ortned onoci le ne cilc aqali savitanreÄla salif y odnof ed rolOC .ssecca SM ne sotad ed ajoh anu raetamrof om²Äc somartsom el ,gob ed n³Äicacilbup atse nE .saicarG .albat al adot on ,artseum es euq ortsiger nu olos noc ecerapa y ,oiralumrof etse rirba arap atilartnec im ne n³Ätob nu ©Äero oreP .sotad ed ajoh ed oiralumrof They use the only line of coder that previously published. on. on.
